

Stealers Wheel "Home from Home"

Visit "[Home from Home](#)" on MotoLyrics.com

Living way down here and you're way up there
When I get this way, well, I can't feel you anywhere
Can't feel you anywhere
And I don't even care in this home from home

The people in the room, trying to let it go
But everybody's so wound up, they got nothing to show
Baby, you'll never know
Baby, I can't let go in this home from home

It's so hard to leave you, it's hard now every time
You know, how I need you

I'm always here inside, I never see the day
And when the nighttime comes, I try and drink the
blues away
Drink the blues away
Baby, I just can't stay in this home from home

Take me away, you know I can't stay
I can't take another day in this home from home
