(Rafferty/Egan)

I was down and I was so hung up, drinkin' whiskey from
a paper cup,
Can't get out of the mood I'm in, waitin' for everybody
to begin,
Turn the wheel, come on we'll make me feel, just dig
your heels, and we can fly.

She made me get up right out my seat, made me get
up and move my feet,
She had me moving on down that line, everything was
gonna work out fine,
You and me, feelin' free, if you'll agree, maybe we can
touch the sky.

Never gonna stop, now we got the feel of it,
And if you want, well, we can make a meal of it,
Don't hold back, just let yourself go.
We don't have to be afraid of it,
And don't you know, well, we were made for it,
Don't hold back, just let yourself go.
Never gonna stop, now we got the feel of it,
And if you want, well, we can make a meal of it,
Don't hold back, just let yourself go.
We don't have to be afraid of it,
And don't you know, well, we were made for it,
Don't hold back, just let yourself go.

Oh, let yourself go, oh, let yourself go....
Don't hold back, just let yourself go.
(I was down and I was so hung up, drinkin' whiskey
from a paper cup...)
