Wow!

They say one man's meat is another man's poison
But I've chosen the greatiast heights in life
That's laughter is where there lots of fun
Sorrow gone where the grass is green
I want no screwface passenger
Nightmare no I'm a sweet dreamer

Can't be no sight for sore eyes
Got to vitalise I self show
Like a burning flame got light up I life easy does it
Happiness is a cheerful countenance
Stress leads to madness
Its insanity confirmed by humanity
Insanity
Demons knock upon my door
Them think dem can kill joy
You can't keep a good man down show
Like a burning flame got to light up I life easy does it.

Lots of fun says I feel so good

Burning flame
Laughter is where there's lots of fun.
