Set sail from the island shores  
Told of the streets that were paved with gold  
We were cheap labour right after the war  
A pie in the sky we were searching for

Our mamas and papas came over and got no respect  
When they came for work  
And sent for our brothers and sisters  
Who left all the sunshine  
To be treated like dirt....so now

Dem a throw dirty water in our face  
We came here and got no love only hate  
So we are tired to eat up the crumbs pon your plate  
....can't wait  
I just can't wait, no way  
....can't wait  
I just can't wait, now, no way  
Give one good reason why you do that

We ain't got completion to get the connection  
To be in position for the right direction  
Wow know

We've got wounds from old slavery  
And even today they refuse to heal  
Just like a scapegoat we almost feel  
Cause we have been given a very raw deal

The last to be hired the first to be fired oh yes  
Still remains the same  
We built up your country and foretold your wars  
Any crises we would get the blame so now

Can't wait, I just can't wait no way  
Can't wait, I just can't wait

Gimme back me shilling with mi lion pon it  
Gimme back me land flowing with milk and honey

Back away with your name calling us Jungle Bunny

You tell too much blasted lie with your tarzan movie

Can't wait, I just can't wait

Just give me one good reason why you do that!
