Woops outside your head
Woops outside your head
Crucial and red

When the sun goes down Me little moonshine darling
And you're in the mood for love and you feel like
dancing
Rub it up Rub it up Rub it up Rub it up

Boogie to some music
Boogie to some music
Boogie to some music
Boogie to some music

Come mek we go deh in a rub a dub (stylee)
A dis ya ridim drive the whole world (wile)
Come mek we go deh in bang diddly bang (stylee)
I wanna know how you're feeling (irie)

Sounds call ravers
Got you craving for more
Sounds call ravers
Got you craving for more

Come mek we go deh in a rub a dub (stylee)
A dis ya ridim drive the whole world (wile)
Come mek we go deh in bang diddly bang (stylee)
I wanna know how you're feeling (irie)

Reggae bandwagon is the fashion that's going around
Dub masters back in town with the fashion that's going
around
Didn't you hear

Woops outside your head
Woops outside your head
Crucial and red
Woops outside your head
Woops outside your head
Woops outside your head

Disco blaring through the window Ravers sounds got

full control
A new day is dawning arrives without warning
Chart busting sounds to rock down the house say
Boogie to ze muzik
Boogie to ze muzik
Boogie to ze muzik
Boogie to ze muzik

Reggae bandwagon is the fashion that's going around
Reggae bandwagon is the fashion that's going around

So when the sun goes down me little moonshine
darling
And you're in the mood for love and you feel like
dancing
Rub it up rub it up rub it up rub it up

Sounds call ravers
Got you craving for more
Sounds call ravers
Got you craving for more

CHORUS

Come mek we go deh in a rub a dub (stylee)
A dis ya ridim drive the whole world (wile)
Come mek we go deh in bang diddly bang (stylee)
I wanna know how you're feeling (irie)

Woops outside your head
Woops outside your head
Woops outside your head
Crucial and red

Come mek we go deh in a earthman (stylee)
Come mek we go deh in bang diddly bang (stylee)
I wanna know how you're feeling (irie)
I wanna know how you're feeling (irie)

Got you craving for more
Got you craving for more
Got you craving for more
more and more, more and more, more
