Come on show me your cancer
I might show mine
I've been holding out for something but
got left behind
Well I'm almost out of patience
don't cross that line
There's only so much I can handle till it wakes me up
inside
There's no happy endings
in this life of mine
Fate has had it's way with me
gets me every time
I need to know the ending to
to this life of mine
Fate can have its way with me
I'll just do my time
Don't I deserve at least an answer
just a little sign
Give me a reason to believe that we are just not
wasting time
My attention grows shorter
this one track mind
There's no happy endings
in this life of mine
[Chorus]
Life of mine
There's no happy endings
in this life of mine
Fate has had it's way with me
gets me every time
I need to know the ending to
to this life of mine
Fate can have its way with me
I'll just do my time
Let me do my time
let me do my time
Fate can have it's way with me
I'll just do my time [repeat]
