Come and save me, come on down from that hill
Where you sleep, no more do you ever have to dream
Together we can, together we'll
Kill monsters in the rain
We are the same, what a mess you made

Hide in the cupboard, behind the soap boxes and..
Your mom, will never see us lying, hiding awake
Together we can, together we'll
Kill monsters in the rain
We are the same, what a mess you made

I was cold, in line
Picked out, backed down
Fucked up, out of love
Out of time, I fell
I'm never going back again..!..

Come and save me, ill climb on up your hill

We dont sleep, no more life lived like a dream
Together we can, together we'll
Kill monsters in the rain
We are the same, what a mess you made

I was cold, in line
Picked out, backed down
Fucked up, out of Love, out of time
The you were, then you smiled
And again and again and I fell
Open eyes, I did see that ghost, that soul..
Was buried alive, and i swore
Id never see that place again...!!!...

Together we can, together we'll
Kill monsters in the rain
We are the same, what a mess you made
Oh we are the same, what a mess we'll make
