You know i've been traveling for a long, long time
I've seen the ends of this world, and i'm cold in your
eyes
If i leave you traveling, long way to carry me home

There was this storm and it took my friend
They found him the next day, he was cold and pretend
If he leaves me traveling, long way it is to carry him
home

Then i lost my brother to the bullets of your war

There gonna bomb your city, and the cold wind will
blow
If i die before i learn to live, he's gonna carry me home

I sent a letter to the woman that i loved
Its read baby im sorry, but im cold in your arms
If she leaves me traveling, long way it is to carry her
home
And if i leave you traveling, all i know is how to carry
me home
