Falling in love again
It's an easy thing to do
I've lost my heart again
Each time I look at you
People say that it only happens once
But I tell you, it ain't true
Cause I'm falling in love again, with you
No reason to pretend
Cause fairytales are few
But I loved you as a friend
Before it all came true
People say that it only happens once
But I tell you, it ain't true
Cause I'm falling in love again, with you
