[Slush "The Villain"]

Slush "The Villain" all up in this mothafucka for the Y2K
bitch

Represent Sawed Off to the fullest
With these mothafuckin bullets
Lettin all my enimies know
I'm about to blow like Hiroshima bitch
I'm on the verge of getting rich mothafucka

[Bams and Trumayne]

I've been a soldier putting in work just earn stripes
Layin them on the corner with no life 17 tight
Gun fights each time I look, Lok's got the pump
With over stuffed trucks and homie just forced to
dumped
With no senses lookin for no regrets
The hood they did the dirt left them soakin wet
No where to jet, if you pull you pistol you better shoot it
And Lok make the tape, waiting just to close your set
Now matches always getting made, niggas days
ruined
And riding with a vest and lovin what my homies doin
We pick and choose, flippin coins and breakin rules
Paid off my dues, on the street play to lose
Leave no clues, DNA came missin
People talkin but you know the streets listen
Diamonds glisten and babies always come up missin
And flyin in an expedition on a murder mission

[Chorus: Slush "The Villain"]
