

## Steely Dan "Jack of Speed"

Visit "[Jack of Speed](#)" on [MotoLyrics.com](#)

Teddy's rolling now most every night  
Skatin' backwards at the speed of light  
He's changed - in a thousand little ways  
He's changed - yes indeed  
You know he's movin' on metal, yes he's  
Hanging tight with the Jack of Speed

Sheena's party - there's a case in point  
That right-wing hooley sure stunk up the joint  
He's gone - he walks through the old routines  
But he's gone - guaranteed  
He may be sittin' in the kitchen, but he's  
Steppin' out with the Jack of Speed  
You maybe got lucky for a few good years  
But there's no way back from there to here  
He's a one way rider  
On the shriek express  
And his new best friend is at the throttle more or less

He can't hear you honey - that's alright  
Pack some things and head up into the light  
Don't stop - he'll be callin' out your name  
But don't stop when you hear him plead  
You better move now little darlin' or you'll be  
Trading fours with the Jack of Speed
