Savoy sides presents a new saxophone sensation  
It's Parker's band with a smooth style of syncopation  
Kansas city born and growing, you won't believe what  
the boys are blowing  
You got to come on man and take a piece of Mister  
Parker's band

You'll be riding by, bareback on your armadillo  
You'll be grooving high or relaxing at Camarillo  
Suddenly the music hits you, it's a bird in flight that just  
can't quit you  
You got to come on man and take a piece of Mister  
Parker's band

We will spend a dizzy weekend smacked into a trance  
Me and you will listen to a little bit of what made the  
preacher dance

Bring your horn along and you can add to the pure  
confection  
And if you can't fly you'll have to move in with the  
rhythm section  
Either way you're bound to function, 52nd Street's the  
junction  
You got to come on man and take a piece of Mister  
Parker's  
Clap your hands and take a piece of Mister Parker's  
Come on man and take a piece of Mister Parker's band
