The word is not enough  
To judge the souls we save  
It tries too hard  
To make the mind behave

Roll back the meaning  
Feel out what's seeming  
To begin now  
You'll find that when you  
Roll back the secret of  
What's behind and what's above  
It's all that I've been thinking of

Our special losing streak  
It can't survive for long  
The time is right  
But something else is wrong

Roll back the meaning  
Drink to our dreaming  
In the end then  
Ah, you gotta walk back a sacred mile  
Where we contact a backwards style  
A wilderness we can't defile

The time is right  
But something else is wrong

Roll back the meaning  
Drink to our dreaming  
In the end then  
Ah, you gotta walk back a sacred mile  
Where we contact a backwards style  
A wilderness we can't defile
