Boys and Girls
They come from all around
From dear old Stockholm
To Copenhagen town
Forget their troubles
In tasty riddum n' rime
So here you are
And now it's party time
Wrap your mind
Around this sound
And let the goodness ripple down
Goodbye to Lonely Street
You're in the Catbird Seat
At THE STEELY DAN SHOW

If you got backpacks
And pointy little shoes
Late-model roadsters
Or just those walkin' blues
A case of heartache
That you're too numb to fight
A secret sorrow
That keeps you up all night
Well don't you fret
It's not your fault
Just lay it all on Don and Walt
Just trip out on these hits
The groove that never quits
At THE STEELY DAN SHOW

So buy a program
And/or a hat
You don't pass up a deal like that
It's only promo stuff
But hey it's good enough
