Ain't no man can tell you  
What's right for you  
Cause you got to know what you need to know  
To know what you got to do

You got to walk it just like you talk it  
Or you know your gonna lose that beat  
Yeah, you got to walk it just like you talk it  
Or be sure you're gonna lose that beat

You rap yourself to ribbons  
And bite and punch and kick  
But join the race  
You'll have to change your face  
The whole thing seems so sick

[Chorus]

[Solo]

[Chorus]

Now Carter he's got a problem  
And most folks you'll agree  
He's got to grab, go blind or lose his mind  
And most folks do all three

[Chorus]
