Mediocre friend put on a mediocre smile for me  
Mediocre friend, pretend you're happy for me, happy  
for me  
Mediocre song, come on, it means something for  
someone  
Mediocre song means something, means something

Mediocre band, perform mediocre songs for us  
Mediocre band, dance for us, dance for us  
Mediocre spark, surprise me, let me know you're still  
around  
Mediocre love means something, means something

With my hands covering both of my eyes  
I am too scared to have a look at you now  
I hope I mean something, I hope we mean something  
I hope we mean something for you, my love

With my hands covering both of my eyes  
I am too scared to have a look at you now  
I hope I mean something, I hope we mean something  
I hope we mean something for you, my love

My mediocre sleep, my mediocre sleep explains  
Mediocre me, don't know how to tell you how I feel  
Mediocre me, ice cold and super silent  
Mediocre me, about to leave everything behind

With my hands covering both of my eyes  
I am too scared to have a look at you now  
I hope I mean something, I hope we mean something  
I hope we mean something for you, my love

With my hands covering both of my eyes  
I am too scared to have a look at you now  
I hope I mean something, I hope we mean something  
I hope we mean something for you, my love
