Each Christmas, as you think about the things you're  
grateful for  
You bow your head and pray... that the tree will fit  
through the door  
A snowman cookie makes the job a lot more fun to do  
You smile because it's awfully rich (mm) and just for a  
moment,  
So are you  
Christmas is a homemade holiday  
Fix it family style  
Season with the sweetest memories  
Mix it awhile  
Stir in hugs and kisses  
You'll get lots of those  
With mistletoe above you  
And flour upon your nose  
Christmas is a time for sprinkling  
Spice and sparkle and joy  
Simmer 'til it's warm and sincere  
It's a yearly miracle that everyone understands  
For it's made with love and your own two hands  
Christmas is a homemade holiday,  
One you never outgrow  
Funny, how a pile of cotton balls turns into snow  
Kids in tinsel halos give a manger play  
And Mom believes her rascals are angels for a day  
Christmas is a time for twinkling lights and startling  
sights  
Driveways glow with wise men and deer  
It's a yearly miracle that everyone understands  
For it's made with love and your own two hands  
Yes, it's made with love and your own two hands
