[Singing Sample] Everything's alright (x3)

[Dizzy Dustin]

When the wind and sands where the land's away (uh-huh)

There's no man that stands in it's way (uh-huh)

People tell me,

Life would be lovely

When I own a ?

And find my sharona

But I don't get caught up, this isn't my turf

I'm not even a citizen of planet Earth

Marooned on the boondocks in timbucktoo

(What do you do?) I wait for the rescue crew

So I don't need an IV to revive me

When I think my thoughts drive me,

To the brink,

If the end is near, then send it here (together)

I'm outta sight like a satellite

And that's alright

Chorus:

[Singing Sample] Everything's alright (x2)

[Together] If the end is near, then send it here

[Singing Sample] Everything's alright

[Andycat]

Well, as I rock beatie-beatie-beats

In the endtimes (?), breakin' it down like enzymes

To package and send rhymes

To another galaxy

As a proton, I split 'em into catastrophe

And so on

Now people wanna say it's great to be alive today

With the strives we've made

And the lives we've saved

But if you really wanna know

How much longer time'll last

Tune into your local TV simulcast

Watch the fall of the family

Natural disasters

Disease, enemies, attack to strike back
And they claim its uncontrollable
But you know that they're full of bull
So you can't be so gullable
Cuz it's like that
Mic that, Andycat
My architect pleases
When I was 12, I went to heaven for lovin' Jesus
'Cause hey, we could be done tonight
On the rapture
And that's alright

Chorus

[Both MCs trade verses]

Some try to run from the hands of time
But they get lost, and hit the land mine
Like a teenage love
You can't trust your girlfriend
Saying don't, don't, don't hurt me again
Or addiction (addiction)
You gotta watch your back
There's a junkie in the alley with a baseball bat
But as bad as that sounds
Really everything's fine
As Young Einstein, it's "so fine"(sample)
Don't try
To cheat death like the Fall Guy
'Cause we all die
Think about it.
Why?
Because there's not a bigger fish to fry
And that's no lie
Check it out
[Together] If the end is near, then send it here
[Together] If the end is near, then send it here (repeat
til finish)
