Do you wanna dance
It shouldn't be a problem
Wait for my instructions

Come on, come on, make a move, make a move !

Give me your loving
Give me your love
Give me your loving all the night
Give me your loving
Give me your love
I need you by my side
Oh oh oh ! Oh oh oh !
Give me your loving all the night
Oh oh oh ! Oh oh oh !
Give me your love tonight

Give me your love straight ... up
Take me to the base where we belong
If this love you need but this love I get so
Hold on tight and we'll be strong
Ant other part time and I can't give you love
And I'm sure that my rhythm can get to you
So don't stop and don't let go
You've got my heart now take my soul

Love is jumping you mustn't agree
Stay together feel the love come to
Don't have questions just get busy
Break my heart and you can leave me
Time to be at night together
Rainy day or sunny weather
Do you think that you're missing something
That's not right just give me your loving
