I can see there's something in your eyes  
You just took a fall from paradise  
Saw the lipstick on your neck  
Maybe you should just confess

Oh, oh, oh, oh, oh

I don't wanna lose my head today  
But I know there's something in the way  
Maybe I made a big mistake last night  
When I left you alone with Chelsea

Chelsea's the kind of girl that's cold as ice  
Beautiful with nails filed sharp as knives  
She called me while you were kissing  
So I could hear what I was missing

Oh, oh, oh, oh, oh

I don't wanna lose my head today  
But I know there's something in the way  
Maybe I made a big mistake last night  
When I left you alone with Chelsea  
When I left you alone with Chelsea

You're just a typical guy  
And you're typically blind  
You can see I'm out of here  
And that I said goodbye

I don't wanna lose my head today  
But I know there's something in the way  
Maybe I made a big mistake last night  
When I left you alone with Chelsea  
When I left you alone with Chelsea  
When I left you alone with Chelsea
