Your worst defeat
Swept off my feet
Thought it was fate
It was just fake
Synthetic lust

Cause some of this [cause some of this]
Wrapped in a kiss [wrapped in a kiss]
Such a mess [such a mess]
I must express [I must express]
You're like orange crush

I was a fool but now I see
Your perfect love was make believe
And that your heart is empty

I've had too much of this sugar rush
o-oh
No more orange crush
I've had too much you've been cut off
o-oh
No more orange crush

You make me sick [you make me sick]
How did I kiss [how did i kiss]
Your flattenin stare [your flattenin stare]
I had to bail [I had to bail]
On orange crush

I was a fool but now I see

Your perfect love was make believe
And now the bottle's empty

I've had too much of this sugar rush
o-oh
No more orange crush
I've had too much won't you shut up
o-oh
No more orange crush

o-oh

o-oh
No more orange crush

o-oh
o-oh
No more orange

The orange sky has turned
Into a deeper blue
I can't believe that I
Fell down into you

I've had too much of this sugar rush
o-oh
No more orange crush
I've had too much won't you shut up
o-oh
No more orange crush

I've had too much of this sugar rush
[sugar rush, sugar rush...]
I've had too much of this sugar rush
[sugar rush, sugar rush...]

No more orange crush
