I remember all those nights
Your voice would shake from the tears you cried
What's the meaning of this life.
Guilt can bring you to your knees
You can't escape the memories
When shame is all you feel inside.

Don't look back
Leave what's broken in the past
Take my hand
And understand

It's not over
The best is yet to come for us
Come for us
Night has faded
A brand new day has come for us
Come for us

A million miles from where we've been
Hope's a road that has no end
You pray to God that we would make it through

Forgiveness always finds a way
A letting love that fears no pain
Just take a look at me and you

Don't give up
We've only just begun
I believe
I believe

It's not over
The best is yet to come for us
Come for us
Night has faded
A brand new day has come for us
Come for us

It's not over
The best is yet to come for us
Come for us

It's not over
The best is yet to come for us
Come for us
Night has faded
A brand new day has come for us
Come for us

It's not over
