"What You Do"

I'm not a stone, I bleed just like you do
I'm flesh and bone, I feel just like you do
No part of me can be immune
Would like to be but still I bruise
Haven't got a lot to lose

Don't be afraid, take it like a man
Please behave the same way if you can
No bitter tongue will get to me
And if it did I won't let you see
Show the bastards what you mean

So close I can taste it
I'm ready to please
Too close now to fake it
Pretending is sweet
I'm down on my knees
I'm dying to
Show the bastards what you do
Show the bastards what you do
Show the bastards what you do
Show the bastards what you do

So close I can taste it
I'm ready to please
Too close now to fake it
Pretending is sweet
I'm down on my knees
I'm dying to
Show the bastards what you do (x6)
