Underground warlords,
Baptized on fire
Destroy under metal command
Fighting for freedom
Riding the sky
There is no fear in our hearts
Brothers of metal
We heard the call
United we're ready to strike
Rising through fire
With swords in our hands
Armors are leather and spikes

Chorus:

Flesh turns to iron
In the sacred throne of metal
Ready for battle screaming
The great battlecry
Possessed by metal

The battle starts
With fire in your eyes
The tyrants got nowhere to hide
Deliverance squad
Together we stand
To bring all oppression down
Warriors of metal
Unstoppable forces
Rising the rage of our sound
Born to bring justice
Deliver manking
The force guides us to fight

Chorus:

Joining in blood

Headbangers will ever fight
We conquer our freedom
Light the blaze
Who lights the way
Possessed by metal

Solo: Carlos, Mike

Chorus:
Joining in blood
Headbangers will ever fight
We conquer our freedom
Light the blaze
Who lights the way
possessed by metal

Now from the ruins
Across the land
Our standards of freedom
Shall rise
The proud we fell
The strenght we'd regain
No one will take it away
The power & the glory
Stand by your side
Metallians we hail you tonight
Our message is clear
So let it be heard
Heavy metal will never die!!!!

Chorus:
Flesh turns to iron
In the sacred throne of metal
Ready for battle screaming
The great battlecry
Possessed by metal
