Outside, there's a spaceship
Blocks the sun
Forms a shadow hovering over me

Yesterday I had missed it
But today, there's a girl who shows me everything

I said: ohhh, she was the moment
I said: ohhh, she was the moment
I said: yeah, moongirl

Let's surf on the horizon
To the moon were the world will look much clearer to
me
One day I'll be finished
But today, there's a girl who shows me everything

I said: ohhh, she was the moment
I said: ohhh, she was the moment
I said: yeah, moongirl
