Cool my brains and soothe my head
Stimulate me my Cococo
Sneak into my empty bed
And educate me my Cococo

In the summer, in the spring
In public places, my Cococo!
On an island far away
Lemonade with my Cococo!

And when I was down and failing life
You came save me my Cococo
And when they said I'm telling lies
You believed me my Cococo!

And through the noise I heard a song
You were singing my Cococo
And when you said that nothing's wrong
I believed you my Cococo
But you were gone when I came through
And I'll remember you, oh oh oh!
Well some day I'll dance with you
When I'm dreaming my Cococo

I sat alone and I didn't care
I sat two years in the same old chair
I saw three roads and I didn't know
Which way to go go go go!
I need some help from a little love
I need some help from a little above
And you were there when I was feeling low
I won't forget you my Cococo!
I sat alone and I didn't care
I sat two years in the same old chair
I saw three roads and I didn't know
Which way to go go go go!
I need some help from a little love
I need some help from a little above
And you were there when I was feeling low
I won't forget you Coco
I won't forget you Coco
I won't forget you Coco

I won't you forget Coco

I won't forget you no no

I won't forget you no no

I won't forget you no no

I won't forget you no no

Because you're my Coco

You're my Coco

My Coco

You're my Coco

Yeah, My Coco!
