Verse

Baby I know that I hurt you
Tore your little heart apart, hey yeah
And baby I know I mistreated you
And I knew I was wrong from the start, hey yeah
Please forgive me, I'm only human
And I've been so alone since you've been gone

Chorus

Been too long since you've been gone
And tell me why have you stayed so far from home
'Cause I know it's been rough out there on your own
So come back, come back, where you belong

Verse

Baby please tell me now
Oh now please, show me how to make it up to you
oh, I do know that I broke you down so
i made you want to let me go, oh
please forgive me, I made mistakes
So please don't take your love away

Repeat Chorus

Bridge

my love, my love, can I please explain
'Cause I can't take the past away
i know I was a fool for treating you cruel
So what's a girl like me to do
Come home, yeah yeah
Come home

Repeat Chorus 2 times
