Some of our doctors I think are acting odd
Cause cloning humans I do believe is playing God
I can't believe what's happening with the animals
What good is mass production if now we have mad
cows disease
Please, no more, please stop all these wars.

The human race is committing suicide
Everyone one of us is playing a little part
There's a real bad disease spreading worldwide
If it doesn't infect you physically
It will creep into your heart
Creep into your heart

How can a state execute a person
In the name of justice but justice isn't done with murder
Modern society isn't based on family
Without foundation we turn into a hopeless generation
Please, no more, please stop all these wars.

The human race is committing suicide
Everyone one of us is playing a little part
There's a real bad disease spreading worldwide
If it doesn't infect you physically
It will creep into your heart
Creep into your heart

Wouldn't it be nice if we would be like children
Playing soccer all day and building crazy tree houses
Please no more, I'm begging you to stop all these wars

The human race is committing suicide
Everyone one of us is playing a little part
There's a real bad disease spreading worldwide
If it doesn't infect you physically
It will creep into your heart
Creep into your heart

The new morals nowadays
Yeah, they are pretty crazy
I hope they will change

Cause otherwise, otherwise
I'm out of here
