Looking back at the past
Wonder how it could have lasted
The way I felt I never ever would have passed

Thanks for all those times
You stood by me when I climbed
The way I felt I never ever would have time

Will I ever do the same
The same you did for me
Will I ever sacrifice
The way that you did for me

Now I sit here in my chair
Think of times you showed your care
The way I felt I never ever have been fair

Take so much of your love
Never felt it's not enough
The way I felt I never ever gave you my love

Will I ever do the same
The same you did for me
Will I ever sacrifice
The way that you did for me

Will I ever make you laugh
The way that you made me laugh
Will I ever make you cry
The way you made me cry

Will I ever do the same
Will I ever do the same
Will I ever do the same
Will I ever do the same

Will I ever do the same
The same you did for me
Will I ever sacrifice
The way that you did for me

Will I ever make you see
The love I have in me
Will I ever make you see
The love I have for you

Will I ever do the same
Will I ever do the same
Will I ever do the same
Will I ever do the same

'Cause I used to know
Now I need to know
Will I do the samw
The same you did for me
