tepping out tonight flying so high
its the good times keeping me alive
are you ready to hit it running
this is where it's at six in the morning

you can fake this only if you take this (you wanna lose
control)
the way she does it i can't get enough

????? we keep it on the dance floor
discotech meet me at the back door
lets get down we've been waiting a long time
she back i can feel it in the air
discotech you know she's going to be there
let's get down weve been waiting a long time

show up in the crowd take a look around
me and my crew we came to get down
she's giving me looks i can't help it
the way im feeling its going to happen

you fake this only if you take this (you wanna lose
control)
the way she does it i can't get enough

????? we keep it on the dance floor
discotech meet me at the back door
lets get down we've been waiting a long time
she back i can feel it in the air
discotech you know she's going to be there
let's get down weve been waiting a long time

you make fast living look just fine
looks like i got here just in time
tonight the city is yours and mine
but it wont last forever
