Lately I've tried not to screw it up so badly,
I will strive not to manipulate this time.
Overwhelmed, but I would like to please everybody
I'll be waiting for a sign.

Thirteen
Unlucky might seem,
Step back
If you see a black cat

One number - if you're telling me,
I will give you a superstition
One number - if you're telling me,
I will give you a superstition

Come on now, give some credit once in while,
Difficult, but I would like to please everyone,
Common sense, I will behave as it is required,
I'll be waiting for a sign.

One number - if you're telling me,
I will give you a superstition
One number - if you're telling me,
I will give you a superstition
