"Born Free"

Visit "[Born Free](#)" on MotoLyrics.com

I been working for years and years upon end
Got so much debt worry one day will do me in
Toss and turn nights worry I might have a dream

Heaven can't you help me
Come on baby let me in
This Silver Lining
always seems too thin

I ain't well versed in thoughts on original sin
Never seem to find no answers blowing in the wind
I would pawn my soul if it were worth a damn

Heaven can't you help me
Come on baby let me in
Open up the gates
and show me to the Promised Land

Yeah we were born free
Can't you see
You and me

Now I ain't saying we should draw no lines in the sand
But I think it's bout time people take their lives back in their hands
Cause I know there's something pure in this whirlwind

Heaven can't you help me
Come on baby let me in
Open up the gates
and show me to the Promised Land

Yeah we were born free
Can't you see
You and me
