Looks like another black out night
No holding back so hold on tight
One thing this place has taught me
Is how to go oh on

I'm feeling like the older I get
The more that I'd like to forget
Seein' you fall apart like this
I think I found something I'll miss

If only I knew then
All the things that I know now
You can get through anything
And everything works out somehow
I'd fight to win, no giving in
And I'm done wasting time
Go on and make your move
And baby I'll make mine

I had it all and threw it all away
Never gonna be the same
The wrong side of the tracks
Just always felt like home

All the friends I'll never forget
All the time we could have spent
I wonder what they're doing now
I wish I could go back somehow

If only I knew then
All the things that I know now
You can get through anything
And everything works out somehow
I'd fight to win, no giving in
And I'm done wasting time
Go on and make your move

And baby I'll make mine

And I'm done giving in now
You won't get the best of me

And I'm moving on now
You'll see

If only I knew then
All the things that I know now
You can get through anything
And everything works out somehow
I'd fight to win, no giving in
And I'm done wasting time
Go on and make your move
And baby I'll make mine

If only I knew then
All the things that I know now
You can get through anything
And everything works out somehow
I'd fight to win, no giving in
And I'm done wasting time
Go on and make your move
And baby I'll make mine
