I can be so cavalier / I can be so self aware / I can put  
on quite the facade / So much so I cant turn it off /  
Intervention is what I need, / The city of my heart is  
ready to bleed / Whoa, Come and break me down /  
Won't you march around these walls / Whoa, burn  
them to the ground / I'm begging: won't you to take  
control of my heart / How'd I let it get this far? / An  
epidemic hardened heart / Falling from my laden call /  
I'd sell my soul to gain it all / This surrender is  
harrowing / Though its painful it is just what I need /  
Whoa, Come and break me down / Won't you march  
around these walls / Whoa, burn them to the ground /  
I'm begging you to take control of my heart / Come  
with fire / Come with fire / Whoa, Come and break me  
down / Won't you march around these walls / Whoa,  
burn them to the ground / I'm begging you to take  
control of my heart / Whoa, Come and break me down /  
Won't you march around these walls / Whoa, burn  
them to the ground / I'm begging you to take control  
of my heart
