Okay
Here's the situation
The story of my life...
This time I've really gone and done it
On my own I messed it up again
It's not like it's the first time
You think I woulda learned by now
That I need savin from myself

(chorus)
So I'm waitin on you, whoa
Cause you see more than I do
I'm waiting on you
It's better when I do
Cause I've learned by now
Some way, somehow
You always pull me through
So I'm waitin on you
Another day, another story
A little different from this time
It could've ended up the same way
But I learned to give it up instead, it's amazing how it
happens
When I just let you take control
I don't need saving from myself

(chorus)

Cause you promise if I wait on you
I'll get stronger if I do
You know down the road, around the bend
What's to come and what has been... it's true
So I'm waitin' on you

(chorus)
