There's a gentle guiding in my gut
It shows me the way out when I'm in a rut
This time it led me to my knees
Instead I chose to do as I please
Now I think it is too late

What if I made a mistake?
What if I heard you but I ignored you
How many tries will it take?
What if I made a mistake?

Oh the steady burning in my heart
It gave me direction right from the start
This time I took the long way around
Until I found myself face on the ground
I guess it is never too late

What if I made a mistake?

What if I heard you but I ignored you
How many tries will it take?
What if I made a mistake?

It's real relentless and it won't let me go
I can't fight this, this dirt on my soul
It's relentless and it won't let me go
I can't fight this, this dirt on my soul

What if I made a mistake?
What if I heard you but I ignored you
How many tries will it take?
What if I made a mistake?

What if I made a mistake?
What if I made a mistake?
What if I made a mistake?

What if I made a mistake?
