"Palestine"

Close my eyes tonight
My conscience by my side
It's hard to live this life
Where truth begins with lies

So I won't sleep I will stay awake
Cause if I dream they will/then they'll take their claim
Oh I try oh I try to fight
To stay awake tonight
Palestine, Palestine, Palestine always on my mind

Truth is where desire ends
A meaning to an end
I search myself all the time
To change what's in my mind

I can't find peace cause it's hard to release what we've done
What we could be if we'd only see what we've become
It's unbelievable it's undeniable ohhhh!
I want free, won't sleep, won't dream, won't eat, won't breathe
Won't give in to what's building inside of me
