This is for you (this is for you)
You're the one worth waiting for
You're all I've ever needed
In this life

Let's sneak out the back so we can see
What it took to bring us here and be here
So reminded of better days when
We were both happy

This is for you (this is for you)
You're the one worth waiting for
You're all I've ever needed
In this life

Words can't express the impact you've made on me
And in my entire life
All I can say is that I love you
For everything it serves out to be

This is for you (this is for you)
You're the one worth waiting for
You're all I've ever needed
In this life

Because I try so hard
To make this right

You've got my back on the wall

After all you've put me through
My friends still stay true

Your reign is over
Why couldn't you prove me wrong
