Come in base, I've land my ship on a planet here in
space
This is the one they say is inhabited by the human race
And I'm going out to look around and see what's here
And I'll tell you what I find
Confirmation of the inhabitints, there running
everywhere
Their technology is beyond what I've seen anywhere
But I'm trying to communicate and they don't hear me
Seems like for all I'm finding
I can't find the most important thing

(Chorus 1)

Where are the signs, where are the signs of life
The love that proves there is a beating heart inside
Where are the signs, where are the signs of life
The compassionate concern that makes this world turn
Where are the signs of life

I've got crayons rolling around in the floorboard of my
car
Bicycles all over my driveway, bats and balls all over my
yard
And there's a plastic man from outer space sitting in
my chair
There signs of life are everywhere
Now I've got questions rolling around in the corners of
my mind
If it's true I live in a world where hope has all but died
And if I really have a living love alive in me
How am letting it be known, how am I letting it be seen
(Chorus 2)

These are the signs, these are the signs of life
The love that proves there is a beating heart inside
These are the signs, these are the signs of life
The compassionate concern that makes this world turn
These are the signs of life

These are the signs, these are the signs, these are the
signs of life
The love that's flowing from the heart where the grace

of God has
left its mark
These are the signs, these are the signs, these are the
signs of life
The reaching out of a servants hand, the giving that
makes no demand
These are the signs, these are the signs, these are the
signs of life
The living proof of the faith inside, these are the signs
of life
These are the signs, these are the signs, these are the
signs of life
These are the signs, these are the signs, these are the
signs of life
These are the signs, these are the signs, these are the
signs of life
