

Daylights, The "I Guess I Missed You"

Visit "[I Guess I Missed You](#)" on MotoLyrics.com

A crush turns to love in a rush
Maybe you were too much to be with or without
And all the roads lead to the very same dead end
street
I swear Ive tried everything think I'd come around

(Chorus)

You can always run but you cant always get away
the setting sun just comes another day
Well I dont know what I came back for
I'd see your face once more
Guess I missed you
Guess I miss you

The prettiest things sometimes are the dangerous
things
Whether clip on wings
oh cross my heart hope to live just one more day
dont want to miss a second even a second without you
you can always run but you cant always get away

(Chorus)

I guess I missed you
I guess I missed you, ohh
I guess I miss you
