standing on the edge of the beginging and the end
ohh so this is what it feels like
87th floor of a high rise in New York
ohh theres something new this time

and i know since i was young
and i feel it in my bones
and this is how its always meant to go

right here above the street
watching the city span beneath
i couldnt help but feel like an outsider
lifting up off the ground
seeing for the first time now
this is where i became an outsider

i couldnt help but stare when i caught them standing
there
ohh i could see it in their eyes, yea i saw it in their eyes
and i can hear the song its been playing all along
can you hear the singing

and i know since i was young
and i feel it in my bones
this is how its always meant to go

right her above the street
feeling the city span beneath
i couldnt help but feel like an outsider
lifting up off the ground
seeing for the first time now
this is where i became an outsider

ohh singing it yea

this is how its always meant to go

right here above the street
watching the city span beneath

i couldnt help but feel like an outsider
lifting up off the ground
seeing for the first time now
this is where i became an outsider
