(Good morning, Boys  
We just received details of a plan by unfriendly  
elements  
to undermine the efforts of the hip-hop generation.  
Your mission, should you decide to accept it,  
is to overcome these elements using any methods  
necessary.  
As always, should any of your crew be caught or killed,  
the producer will disavow any knowledge of your  
actions.  
Good luck!)

3-2-1, time's expired  
Guns for hire, we're on fire  
Our mission, printed on paper  
We begin a brand new caper  
With order to take the throne  
Servin suckers because we've shown  
A knack to crack and attack the wack  
Mr. Ed, Precise and Exact  
Deliverin the goods like we should  
If you could I know you would  
Try to slide, run and hide  
Here's a token, take a ride  
Cause your time is up, this is our time  
Our record and our rhyme  
So listen to what we say  
We're gonna pave the way  
We're on a mission

(Your mission)  
(Overcome these elements)  
(Any methods necessary)

Set the scene, somewhere in Queens  
It's do or die, no inbetweens  
W Boys, lined up like cattle  
Prime time for a battle  
They're here, full of fear  
From far and near  
It's time, time to rhyme

Word for word, line for line  
Them for theirs, us for ours  
Coalition of the superpowers  
So step back, let us take care  
Of business, a nightmare  
Is occurring, I'm referring  
To the bruises, to the blurring  
Eyes that you possess  
Yes, you can guess  
We're on a mission

(Hip-hop generation)  
(Any methods necessary)  
(Overcome these elements)

(The producer will disavow any knowledge of your actions)

A breeze, men on their knees  
No one competes with rhymes like these  
Some thought but they were wrong  
They just prolong their destiny  
Their date with fate  
But it's too late  
Cause the battle's won, we've won it  
Impossible? We've done it  
Mission accomplished, the new kings  
In your ears it rings:  
We're on a mission

(Hip-hop generation)

(The producer will disavow any knowledge of your actions)

(Hip-hop generation)

(Your mission)  
(Any methods necessary)  
(Overcome these elements)

(Any methods necessary)

(This tape will self-destruct in 10 seconds)
