Don't look a horse in the mouth
Don't let a frog get you down
Dragging you round like a dog on a lead
I'm all you need

Baby I'm in love with you
And my love could go on and on
Maybe you could love me too
And our love could go on and on

So don't look a horse in the mouth
Don't let a frog get you down
Dragging you round like a dog on a lead
I'm all you need

Baby I'm in love with you
And my love could go on and on
Maybe you could love me too
And our love could go on and on

But don't look a horse in the mouth
Don't let a frog get you down
Dragging you round like a dog on a lead
I'm all you need

Baby I'm in love with you
And my love could go on and on
Maybe you could love me too
And our love could go on and on and on and on...
