Your eyes are blue like the ocean  
and baby I'm lost out at sea  
Did the sun just come out  
or did you smile at me  
I've been trying to ask you  
but I can't seem to speak  
Was it love at first sight  
'cause i walked by last week

I'm singing fa la la la la

Your lips look so lonely  
would they like to meet mine  
You are the one that  
I've been hoping to find  
You're so sweet that you put  
Hershey's out of business  
Can I have a photograph to show my friends  
that angels truly exist

I'm singing fa la la la

You're as cute  
as a button  
The things you do  
sure are something  
Are you running out of breath  
from running through my head  
all night

Is there something in your eye,  
oh wait, it's just a sparkle  
Can you get a little closer  
and help me out a little bit  
Because I scraped my knee  
of falling for you  
But baby a kiss will do

I'm singing Fa la la la la la

You're as cute

as a button  
The things you do  
sure are something  
Are you running out of breath  
from running through my head  
all night

I'm falling in love and  
wouldn't I like to think so  
And every night I look at  
the stars out my window  
And I hope I can see the  
one that we saw together  
It was just you and me and honestly  
I'll look for that star forever

I'm falling in love and  
wouldn't I like to think so  
And every night I look at  
the stars out my window  
And I hope I can see the  
one that we saw together  
It was just you and me and honestly  
I'll look for that star forever

You're as cute  
as a button  
The things you do  
sure are something  
Are you running out of breath  
from running through my head  
all night

You're as cute  
as a button  
The things you do  
sure are something  
Are you running out of breath  
from running through my head  
all night
