I heard the scream before by De Brassers  
Hold me now All my friends are so worried Tease me  
now It all comes to an end Tickle me now All my friends  
they get so nervous Tease me now It all comes to an  
end So welcome now Welcome in my soft world  
Welcome  
now With my nasty parts too Welcome now All my  
friends  
are so respected Tease me now It all comes to an end  
I welcome you now Welcome in my underworld  
Welcome  
in my nightless nightmare Welcome in my soft-ware  
Welcome  
in my tupperware-party Everybody is against us Hold  
me now Everybody is against us Tease me now It all  
comes to an end Whisper to me now Whisper all these  
soft words Tease me now It all comes to an end So hold  
me now x4 Everybody is against us x8
