Don't Know Where To Go by De Havenzangers

Shut up! Shut up, I know what I want

Fuck you, suit and tie guy

My life, the way I live it

No God, can stop my vision

This earth, means nothing to me

My way, I do it my way

(CHORUS)

But I don't know where to go

But I don't know where to go

But I don't know where to go

But I don't know where to go

Tell me, why you hate me

Don't tell, I know the reason

Feelings, don't know what that means

Freedom, I laugh about that

Friendship, yeah keep on dreaming

My girl, that's where I die for

This is my life, just leave me alone

This is my life, it's not your life

This is my life, just let me do my things

This is my life, I know what's best for me
