It's hard to get by without a meaning
It's hard to get by here on your own
You got me on high, you got me dreaming
That you could provide my heart a home

You I hope you do
Love me as I love
You I hope you do
Love me as I love you

I'm down on my knees and I assure you
I'm not hard to please if you could stay
As true as I breath, girl, I adore you
Alone as I plead until you say

You I hope you do
Love me as I love
You I hope you do
Love me as I love you

I'm not one of those who leaves you hanging
Oh, no, not, no
Through high's and low's and back again
I am your friend, baby
It's not what I've shown, it's what I'm singing
Ooh babe
I'm dying to know so tell me when
Yeah

You I hope you do
Love me as I love
You I hope you do
Love me as I love you

You I hope you do
Love me as I love
Love me as I love
Love me as I love you
