"No Good Now/Come On Down"

The only thing that matters
The only sense we make
The opposite of laughter
The mother of all aches

You talk about forgiveness
But I don't need your sound
I'm tired of your goodness
Doing no good now

Repeating each disaster
Why learn from our mistakes
Be now or ever after
Keep looking to this day

You talk about forgiveness...

Come on down, come on down
Don't you know we've been waiting for you to come on
down
Ain't to much love to go round, so come on down

Come on down (with love and with forgiveness) ,
Come on down (come on down)
Don't you know we've been waiting for you(can I get a
witness)
To come on down
Ain't to much love to go round, so come on down
