shocking by Dizzy Man's Band
Ain't the world a shocking shock
birds are dyin' in the smog
there's no place where you can breath
just a gasmask's what you need
so this world is dyin'
so this world is dyin'
slowly, slowly, slowly.

Ain't it horrible to know
plants have given up their grow
see the dark clouds in the sky
feel the smoke gets in your eyes
but this world keeps breathing.

Poison, poison, poison
but this world keeps breathing
poison, poison, poison,
it's shocking.

Shocking the sky is grey
shocking don't know what to say
shocking yeah this world is shocking.

In the year 2005 there will be no human life
'cause the earth intends to die
and nobody will survive
but this world keeps breathing
poison, poison, poison
so this world is dying
dying, dying, dying

Shocking the sky is grey
shocking don't know what to say
shocking yeah this world is shocking.
