And if you wanna have some show I know where you
have to g
I every town's a concert hall where we gonna have a
ball
It seems a bit official style but we can join it for a while
So let's go to the opera and listen to that silly crow
Where the barritons are singin' la la la la
And the fatty soprans screamin' la la la la la.

See the hero on the stage see him dying with much
grace
And Romeo and Julia makin' love at the opera.
And if you wanna have some fun I know where it can be
done
So let's go to the opera and laugh about the silly crow
Where the baritons are singin' la la la la .
